Mind Map

by [Nazia Nuzhat](#) - Thursday, 6 August 2026, 10:52 AM

Rifat is a university student who often forgets assignment deadlines, misses important classes, and spends a lot of time on social media. He realizes that his poor planning is affecting both his academic performance and personal life.

Create a mind map to organize Rifat's weekly activities. Then, analyze how your mind map can help him set priorities, reduce distractions, and improve his productivity.
